目 录

公司简介

苏州平方实业有限公司成立于2002年。它涵盖了专业材料搬运和储存设备的设计、开发、生产和销售领域。我们的工厂位于江苏省常熟市，距离上海约100公里，我们拥有一流的设备，包括18多台松下自动焊接机器人、高精度激光切割机、冲压机、折弯机和其他先进设备。我们严格按ISO90001标准操作每一个过程。我们以拥有先进的生产系统、专业的技术团队、优秀的销售团队和最佳的服务而自豪。我们拥有广泛的物流产品，可以满足您在不同行业的不同需求：汽车零部件料架、

Suzhou Pingfang Industrial Co., Ltd. was established in 2002. It covers the design, development, production and sales of professional material handling and storage equipment. Our factory is located in Changshu, Jiangsu Province, about 100 kilometers away from Shanghai. We have first-class equipment, including more than 18 Panasonic automatic welding robots, high-precision laser cutting machines, stamping machines, bending machines and other advanced equipment. We operate every process in strict accordance with ISO90001 standard. We are proud of our advanced production system, professional technical team, excellent sales team and best service. We have a wide range of logistics products that

仓储笼、物流手推车、托盘、和货架等。我们的产品主要由钢制成，经久耐用，耐磨，大多数产品的表面处理是粉末涂层和镀锌。我们是OEM产品的专业制造商，我们相信我们的全系列标准化产品也将满足您的需求。我们一直关注产品质量稳定性。有竞争力的价格、可靠的质量、快速的交货、良好的服务是我们的普遍原则。我们热忱欢迎世界各地的朋友与我们联系开展业务合作。

can meet your different needs in different industries: auto parts racks, storage cages, logistics carts, pallets, shelves, etc. Our products are mainly made of steel, durable and wear-resistant. The surface treatment of most products is powder coating and galvanizing. We are a professional manufacturer of OEM products. We believe that our full range of standardized products will also meet your needs. We always pay attention to the stability of product quality. Competitive price, reliable quality, fast delivery and good service are our general principles. We warmly welcome friends from all over the world to contact us for business co-operation.

MILK TROLLEY

www.pingfang-cn.com

二、牛奶手推车 Milk Trolley

HIGH-QUALITY HIGH EFFICIENCY

我们每年向欧洲出口上万辆牛奶手推车，我们的牛奶手推车具有完美的强度和设计，我们的高质量牛奶手推车在整个配送过程中为客户提供最高的效率。这些受欢迎的牛奶手推车被设计为与牛奶包装机相匹配，这样牛奶就可以直接从牛奶农场运送到车间，并展示销售，而无需离开牛奶手推车。

我们的牛奶手推车有四层和五层两个型号。我们的牛奶手推车上各层的隔板可以折叠起来，以方便操作者对下一层进行操作。

不使用时，这些牛奶手推车是可嵌套的；因此在不使用时非常节省空间，这也提高了运输期间车辆空间的利用率，从而降低了运输成本。

We export tens of thousands of milk trolleys to Europe every year. Our milk trolleys have perfect strength and design. Our high-quality milk trolleys provide customers with the highest efficiency in the entire distribution process. These popular milk trolleys are designed to match the milk packaging machine, so that milk can be transported directly from the dairy to the workshop and displayed for sale without leaving the milk trolleys.

Our milk trolley has two models, four layers and five layers. The partitions on each layer of our milk trolleys can be folded up to facilitate the operator to operate the next layer.

When not in use, these milk trolleys can be nested; Therefore, space is saved when not in use, which also improves the utilization rate of vehicle space during transportation, thus reducing the transportation cost.

型号 (Model) MT001

长度(mm):	657	Length(mm):	657
宽度(mm):	419	Width(mm):	419

这是一款用于纤维制造自动化物流运输系统中使用的运丝车，产品全定制配合机械臂的抓取。

- 1.全自动机器人焊接、焊缝美观牢固；
- 2.高标准喷涂，表面喷塑处理，耐腐蚀性更好；
- 3.稳定性及安全性高，寿命可长达10年以上。

This is a silk transport trolley used in the automatic logistics and transportation system of fiber manufacturing. The product is customized and can be perfectly matched with the grab of the manipulator.

1. Full-automatic robot welding, beautiful and firm weld;
2. High-standard spraying, surface plastic spraying treatment, better corrosion resistance;
3. High stability and safety, with a service life of more than 10 years.

创业合作伙伴，合作共赢，一路相伴，感谢有你。

猪笼养猪系统 Pig Breeding Equipment

二、定制流程 Custom process

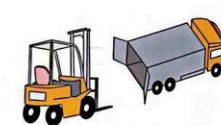

专用非标金属容器开发设计制造流程
The R&D, design and manufacture process
of non-standards customized metal container.

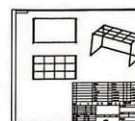

①
部件测量:将所有需要容器的部件测量出
体积和重量。
Parts measurement: Measure the volume
and weight of all the parts, which need
to be putted into containers.

②
数据分析:进出频率、峰值等数据分析。
Data analysis: Analyze the frequency
and peak value of the inbound and
outbound of parts

③
供应链分析:涉及到的周边设备如车辆、
输送、存储等环节的分析。
SCM analysis: investigate the
related circumference facilities
and sectors, such as vehicles,
transportation and storage.

④
初步设计方案:图纸、材料、工艺标准、质
量标准以及产能、价格提供给客户。
Solution: drawing, material list,
techniques QC standards, production
capability & price will be provided
to customer

⑤
图纸审核:与客户共同探讨并提出适合客
户的修改意见。
Auditing drawing: Discuss with the
customers about the requirements
and provide amendments on drawing.

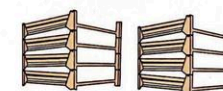

⑥
样品提供:小批量制作样品,按照修改
后的方案。
Samples: A batch of sample items
will be made and improved according
to customers' demand.

⑦
样品测试:实际全程运行,并得出检测结果。
Sample testing: Simulate the whole
process of the items and obtain the
result of the test.

⑧
修改:根据实测结果,提出修改意见。
Modification: Put forward the
advice on improvement of the items
according to the testing.

⑨
批量生产:根据合同和质量标准生产。
Manufacture: items shall be
manufactured within quality standards
under contracts.
